Standard & Poor's Quality Rankings are utilized to capture the long-term growth and stability of a company's earnings and dividends in a single measure. The High- and Low-Quality research portfolios are provided to compare the aggregate of all companies with above average S&P Quality Rankings (B+ or Better) to those with below average S&P Quality Rankings (B or Below and Not Rated). The High- and Low-Quality research portfolios are derived in part from the Russell Index Data.
